RE: Docket 96P0215

April 15, 1999

8154 '99 APR 19 P1:51

Dear Commissioner Kessler,

I agree with the Population Research Institute, Norplant has damaged so many women (including myself), in so many countries that it must be withdrawn from the market before it can damage any more women. Please consider the Norplant petition with the greatest care. Wyeth Ayerst claims Norplant was tested on 55,000 women around the world, yet an estimated 50,000 are suing the company over the pain their product has caused. We may never know how many thousands of women around the world have had to suffer this drug delivery system's effects in silence because they lacked the legal rights and media outlets that American women have. We urge the FDA to prevent more women around the world from needless victimization and take the Norplant off of the market. On a personal note I wish I would have never even considered it.

Sincerely,
Denise M. Miller
